ARABESQUE

VX1006

Arabesque pushes the boundaries of craftsmanship with three-dimensional curved arms inspired by the dynamic shape of an aircraft propeller. Elaborately intertwined yet pleasingly unadorned, the arms extend from a hand cut, mouth blown Bohemian crystal central column and culminate in solid crystal faceted bobeches. A single large, faceted pendant suspended beneath the center point of the fixture casts brilliant reflections of light. With bold geometry and crisp crystal detailing, Arabesque achieves a unique balance of modernity and tradition.
